

## MEDIA RELEASE

# JALAN RAJA CHULAN TURNING INTO JALAN IMBI REOPENED

**Kuala Lumpur, 15 May 2014:** Mass Rapid Transit Corporation Sdn Bhd (MRT Corp) wishes to provide an update on the lane closures in the Bukit Bintang area.

MRT Corp wishes to inform that the right turn from Jalan Raja Chulan into Jalan Imbi is now open to all traffic. One lane for this turning was reopened to traffic at 11.30am today.

The turning had been closed since 7 May 2014 as part of the closure of Jalan Raja Chulan between Jalan Conlay and Jalan Imbi when a depression was detected in front of the Audi Showroom and Chulan Square.

On 13 May 2014, Jalan Raja Chulan was opened to traffic headed to Jalan Tun Razak but the right turn into Jalan Imbi had remained closed.

In view of the latest opening, the following closures in the area remain:

- i. Jalan Bukit Bintang (Pavilion-bound) in front of the Audi Showroom, which began on 6 May 2014,
- ii. Jalan Bukit Bintang (Jalan Tun Razak-bound) in front of Bangunan LTAT and Menara Worldwide (Tun Razak bound) which began on 23 April 2014. Road users heading to Jalan Tun Razak from Jalan Raja Chulan will be diverted onto the opposite side of Jalan Bukit Bintang under a contraflow system at this stretch of road.

### ROAD DIVERSIONS

MRT Corp would like to advise road users of the following diversions as a result of road closures in the area:

**i) Jalan Bukit Bintang (Pavilion bound):**

As the stretch in front of the Audi Showroom remains closed, all traffic along Jalan Bukit Bintang from Jalan Tun Razak will be diverted to Jalan Imbi.

**ii) Jalan Bukit Bintang (Jalan Tun Razak-bound)**

As the stretch of Jalan Bukit Bintang (Jalan Tun Razak-bound) in front of Bangunan LTAT and Menara Worldwide (Tun Razak bound) remains closed, road users

heading to Jalan Tun Razak from Jalan Raja Chulan will be diverted onto the opposite side of Jalan Bukit Bintang under a contraflow system at this stretch of road.

## PEDESTRIAN SAFETY

As the closures also affects several pedestrian walkways and crossings in the area, MRT Project Underground Works Contractor MMC Gamuda KVMRT (T) Sdn Bhd has identified several safe walkways and crossings for pedestrians along the roads. Pedestrians are urged to follow directional signs along the roads.

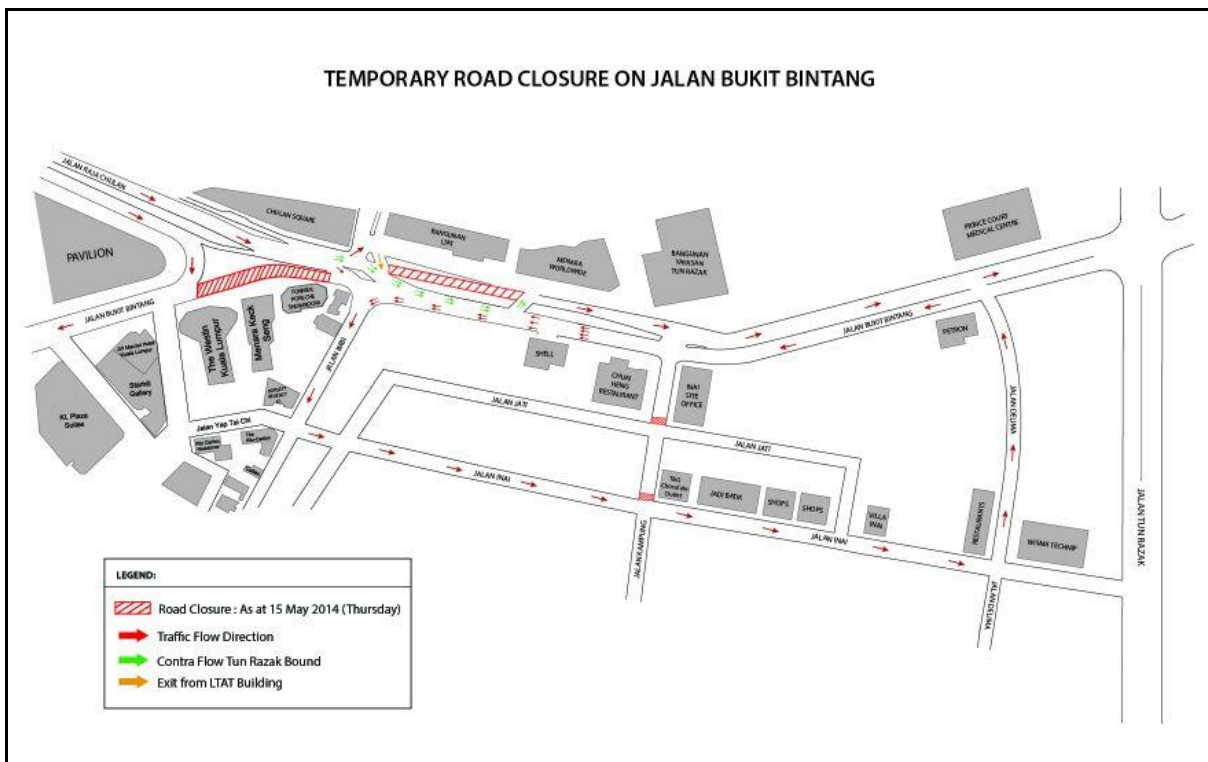

Traffic police and the MRT Project Emergency Response Team have been deployed to help direct traffic.

MRT Corp apologises for the inconvenience caused and will provide further updates on the situation and when the road will be reopened.
